**For: CONTROLLING MEMORY ACCESS
DEVICES IN A DATA DRIVEN
ARCHITECTURE MESH ARRAY**

Examiner: Faherty, Corey S.

Art Group: 2183

Confirmation No.: 1508

SUMMARY OF EXAMINER'S INTERVIEW

Mail Stop Amendment
Commissioner for Patents
Post Office Box 1450
Alexandria, Virginia 22313-1450

Sir:

In response to the Examiner's Interview conducted on April 7, 2010, regarding the above referenced application, Applicants have prepared an interview summary. No claims have been amended. No agreement has been reached.

REMARKS

Claims 1-9 and 11-29 are currently pending in the subject application and are presently under consideration. In the Examiner's Interview, the meaning and scope of the term "data driven processor" was discussed. In response, Applicants are resubmitting evidence submitted with the Pre-Appeal Brief dated July 18, 2006. The enclosed GoogleTM search results show the top ten hits for *data driven processor*, every one of which refers to a *data driven processor*. Also enclosed are copies of articles corresponding to the first four hits. Each article begins its discussion with a brief reflection of how a data driven (or data flow) architecture is different from a von-Neumann architecture.

If the Examiner believes that a telephone conference would be useful in moving the application forward to allowance, the Examiner is encouraged to contact the undersigned at (310) 207-3800.

If necessary, the Commissioner is hereby authorized in this, concurrent and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2666 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17, particularly, extension of time fees.

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR, & ZAFMAN LLP
